Professional Summary

Results-driven **Frontend Developer** with nearly **4 years of experience** specializing in **React.js** and **Next.js**. Expert in building high-performance, SEO-optimized, and responsive web applications. Proven track record in leveraging **Next.js 14/15 (App Router, Server Components)**, and **Tailwind CSS** to deliver pixel-perfect UIs. Skilled in integrating RESTful APIs and optimizing web performance to drive business value.

Core Skills

Frontend: React.js, Next.js (SSR, SSG, ISR), TypeScript, JavaScript (ES6+).

Styling: Tailwind CSS, Material-UI (MUI), Bootstrap, Styled Components, CSS3/SASS.

State Management: Redux Toolkit, React Context API, Tan Stack Query.

Tools & Testing: Git/GitHub, Figma to Code, Unit Testing, Debugging Tools.

Optimization: SEO Best Practices, Web Vitals, Performance Tuning, Accessibility (A11y).

Professional Experience

Frontend Developer (Freelance / Contract)

Apr 2022 - Present

Developed and deployed 10+ responsive web applications using **Next.js** and **React**, ensuring 95+ Google Lighthouse performance scores.

Implemented **Server-Side Rendering (SSR)** and **Static Site Generation (SSG)** to enhance SEO and reduce initial page load time by 40%.

Collaborated with UI/UX designers to translate complex Figma designs into **pixel-perfect**, reusable component libraries.

Integrated complex **RESTful APIs** and managed global state using **Redux** for dynamic, data-driven user experiences.

Optimized web apps for cross-browser compatibility and mobile-first responsiveness.

Key Projects

[Travel Smart UI](#)

Dec 2025

A modern, AI-powered travel planning and booking platform built with Next.js 14, featuring intelligent destination recommendations and a conversational AI assistant.

[Companions Saas App](#)

Sep 2025

Converso is an innovative real-time AI teaching platform that connects learners with personalized AI companions for interactive educational experiences. Choose from various subjects and embark on engaging lessons powered by advanced AI technology, including voice and video capabilities.

[landing-page](#)

Feb 2025

Responsive Landing Page A modern, fully responsive landing page built with React.js, featuring smooth animations, interactive UI, and optimized performance.

[Weather App](#)

Dec 2024

This project is a weather application built using React. The application fetches weather data through an API and displays it to the user. It also uses a state management system to store weather data and improve performance.

[Dashboard](#)

Nov 2024

This project is a responsive web application built with React and Material-UI, designed to demonstrate CRUD (Create, Read, Update, Delete) functionality. It features a structured layout with interactive forms and a user-friendly interface for managing data entries. Utilizing state management, validation, and Material-UI components.

Education

Middle east institute (MEI)

Jul 2009 - Jul 2011

Computers and Information System | Grade: Very Good

Certificates

Front-End Web Development Diploma

Oct 2023

Mec Academy

React js - State -Hooks - Redux - Router
